

**YOU WILL SAVE LIVES EVERY DAY,  
AND BECOME THE BEST DOCTOR  
YOU CAN BE.**

**IT'S WHAT WE DO.**

# **Ocean State Veterinary Specialists**

## **Emergency Doctors Needed**

Ocean State Veterinary Specialists is hiring internship-trained doctors to join a talented and fun group of people who truly care about their patients and clients every day. If you have a strong foundation in emergency medicine from your internship, but know that you want to continue to learn and improve your skills and knowledge – this is an exceptional job opportunity.

OSVS is a 26,000sf building, with a very busy emergency service and specialists in internal medicine, surgery, radiology, critical care, neurology, cardiology, oncology, ophthalmology, and avian/exotics. Emergency doctors work a combination of day, swing and night shifts, and play an important role in training interns. Weekday inpatient shifts allow collaboration with specialists and the opportunity to do critical care.

We are located in Rhode Island, the beautiful Ocean State – and close to all of New England's offerings. We offer a generous compensation and benefits package, with opportunity for production based earnings and rewards for longevity with the company. There is extensive in-house continuing education, and we support annual education at national conferences. The strong internship and residency programs create a constant learning environment.

The caseload at OSVS is high – and the cases challenging. But the emergency doctors have all of the support and resources they need to provide excellent care. If you want to practice high quality medicine, and make a difference to a lot of pets and their people – consider a job at OSVS.
