# **Ocean State Veterinary Specialists**

## **Small Animal Internship – Starting Feb 2020**

Ocean State Veterinary Specialists is offering a Rotating Internship in Small Animal Medicine and Surgery starting in February of 2020. OSVS has a very busy ER and Specialty Referral Center. Interns have the opportunity to see a diverse and challenging caseload, with the continuous availability of experienced ER doctors and specialists to guide them.

OSVS is a 26,000sf building, with eighteen specialists providing advanced care in internal medicine, surgery, radiology, critical care, neurology, cardiology, oncology, ophthalmology, clinical pathology, and avian/exotics. There are over 20 full time emergency doctors, as well as an ECC and Surgery residency program. Equipment includes digital radiography, CT, MRI, ultrasound, fluoroscopy, an in-house laboratory, 4-patient telemetry for EKG, mechanical ventilation and more.

There are two criticalists in support of the ER service, and a commitment to high quality didactic learning as well as strong supervision for case management. Interns are well prepared, by the end of the year, to work in any clinical situation – including high paced emergency practices and – as well as to perform well in a residency should they choose that path.

We are located in Rhode Island, the beautiful Ocean State – and close to all of New England's offerings. The caseload at OSVS is high – and the cases challenging. But the interns have all of the support and resources they need to provide excellent care. If you are interested in this program, a visit is strongly encouraged. Applications will be accepted until October 15.
