

**YOU WILL SAVE LIVES EVERY DAY,  
AND BECOME THE BEST DOCTOR  
YOU CAN BE.**

**IT'S WHAT WE DO.**

# **Ocean State Veterinary Specialists**

## **ECC Residency – January or July start**

Ocean State Veterinary Specialists offers a highly respected residency program in Emergency and Critical Care medicine. OSVS has a very busy ER, and the emergency service manages the majority of the inpatients in the hospital. Residents have the opportunity to see a diverse and challenging caseload, as well as learn to mentor and support interns and emergency doctors.

OSVS is a 26,000 sq ft building, with a very busy emergency service and specialists in internal medicine, surgery, radiology, critical care, neurology, cardiology, oncology, ophthalmology, and avian/exotics. There are over 20 full-time emergency doctors, and a strong intern program. Equipment includes digital radiography, CT, MRI, ultrasound, an in-house laboratory, 4-patient telemetry for EKG, mechanical ventilation, and more.

There are four criticalists in support of this residency, and a commitment to high-quality didactic learning as well as strong supervision for case management. Residents are well prepared for boards (high first-time pass rate), as well as are very capable clinical criticalists – able to run an ER, supervise interns and residents, and manage the most critical of patients.

We are located in Rhode Island, the beautiful Ocean State – and close to all of New England's offerings. The caseload at OSVS is high – and the cases are challenging. But the residents have all of the support and resources they need to provide excellent care. For the January start program – email the contact below. The June program is offered through the VIRMP match system.
